

AZAVIS[®] NEO

**FERTILISER: Organic N-fertiliser with boron(B) and iron(Fe)
obtained from enzymatically hydrolyzed plant-derived proteins**

Declared content:

Primary nutrient expressed as percentage by weight:

Total nitrogen (N): 10 %

Micro-nutrients expressed as percentage by weight:

Boron (total content): 0,5 %

Boron (water-soluble content): 0,5 %

Iron (total content): 1,0 %

Iron (water-soluble content): 1,0 % chelated by DTPA

Contains 1,8 % magnesium expressed as magnesium oxide (MgO)

Organic matter content: 60 %

Total amino acid content: > 62 %

Free amino acid content: >33,6 %

Product in accordance with German legislation (DüMV 5/12/2012) and EC-regulation 2019/515

Recommendations Do not exceed the maximum concentration of 2 % (= 2 kg AZAVIS[®] NEO in 100 L water). Maximum concentration in greenhouse: 1 % (= 1 kg in 100 L water).
For foliar applications avoid high temperatures and bright sunshine.
Treat preferably during early morning or late evening.

Applications Consult our crop-related programs.

Characteristics AZAVIS[®] NEO is an organic N-fertiliser obtained from enzymatically hydrolyzed plant-derived proteins. AZAVIS[®] NEO contains iron (Fe), chelated by DTPA, boron(B) and 1,8 % MgO. Total amount of amino acids: at least 62 % (w/w).

For additional information concerning the specific functions of boron and iron in plant physiology, susceptibilities to and related deficiency-symptoms caused by this nutrient in crops, please consult our technical sheets

for boron: CHELAL[®] B

for iron: CHELAL[®] Fe

Precautions

- wash hands thoroughly after handling; do not drink, eat or smoke during handling.
- if swallowed, seek medical assistance.
- in case of contact with eyes, rinse with plenty of clean water.
- store in a cool, dry place, out of reach of children and animals and far away from food products. Always keep the product in its original container.
- store the product at a temperature between 40°F and 90°F (= 5°C - 30°C).

Miscibility AZAVIS[®] NEO is miscible with most pesticides and herbicides. Avoid mixing with oil-based products. It is advisable to conduct a miscibility test before application. Consult your extension agent or crop consultant.

Preparation of the solution Fill the sprayer tank with the minimum quantity of water, needed to allow good turbulence. Add AZAVIS[®] NEO and mix well. After some time, add the water surplus. User's instructions: use immediately!! Store AZAVIS[®] NEO in its closed original packaging.

Warranty

The liability of the manufacturer is limited to delivery of the product in its original container in conformity with the guaranteed analysis, as indicated on this label. The manufacturer is not responsible for inappropriate or inaccurate use of the product nor for damage caused by weather conditions, soil characteristics or special sensitivity of crops and varieties. In no case shall BMS Micro-Nutrients be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer and/or user of the product. BMS Micro-Nutrients makes no warranties of merchantability of fitness for a particular purpose nor any other express or implied warranty except as stated above.
